motif in Culture

motif [(moh- teef)]

In literature, art, or music, a recurring set of words, shapes, colors, or notes. In the poem "The Raven" (<http://www.dictionary.com/browse/the-raven>), by Edgar Allan Poe (<http://www.dictionary.com/browse/poe>), for example, the word *nevermore* is a motif appearing at the end of each stanza (<http://www.dictionary.com/browse/stanza>). Likewise, the first four notes of the Fifth Symphony of Ludwig van Beethoven (<http://www.dictionary.com/browse/beethoven>) are a motif that is developed and reshaped throughout the work.
